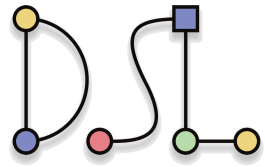
15 June 2018

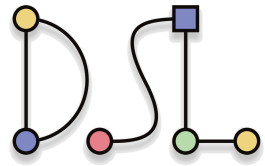
Outline



1. Introducing the Chatbots

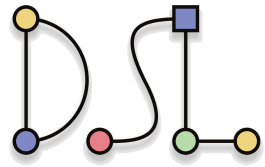
2. DeepQA - A Neural Conversational Model

Introducing the Chatbots



- TWO chatbots are here today
- You can find and talk to them on Telegram.
- Mary (@MaryDSLBot), and
- Dora (@DoraDSLBot)

DeepQA - A Neural Conversational Model



- A Sequence to sequence (seq2seq) model
- Being successfully used in machine translation
- Also used to create chatbots such as the Google chatbot in 2015
